PROFESSIONAL SUMMARY

Results-driven **Frontend Developer** with 2+ years of hands-on experience designing, developing, and deploying high-performance, responsive web applications. Proven expertise in **React.js**, **Next.js**, **TypeScript**, and **Tailwind CSS** with a strong command of modern frontend architecture patterns. Delivered **20+ production websites** across diverse industries with measurable gains in performance, traffic, and user engagement. Skilled in state management (Redux, Zustand, Recoil), RESTful & GraphQL API integration, SEO optimization, and WCAG 2.1 accessibility compliance. Experienced in Agile/Scrum delivery, CI/CD pipelines, and cloud deployments. Currently expanding capabilities in IT support, system administration, and full-stack workflows at Worexa Technologies.

WORK EXPERIENCE

SR. Frontend Developer & IT Support

Jan 2026 – Present

Worexa Technologies —Bangalore, India

Technologies: React.js, Next.js, JavaScript (ES6+), Tailwind CSS, REST API, Git/GitHub, Vercel, CI/CD

- Architect and develop modern, responsive web applications using **React.js** and **Next.js**, following scalable component-based design principles.
- Build and maintain reusable UI component libraries, reducing development effort by **30%** across parallel projects.
- Integrate RESTful APIs and third-party services, ensuring seamless data flow and real-time UI synchronization.
- Drive performance optimization initiatives (lazy loading, code splitting, image compression), improving **Lighthouse scores by 25%+**.
- Manage end-to-end production deployments via **Git**, **GitHub**, **Vercel**, and cloud infrastructure with zero-downtime releases.
- Deliver concurrent IT support: diagnosing and resolving hardware, network, and software issues with a **95%+ first-contact resolution rate**.
- Collaborate cross-functionally with design, backend, and QA teams in Agile sprints, consistently meeting sprint delivery targets.
- Enforce code quality through reviews, OWASP security practices, WCAG 2.1 accessibility standards, and performance auditing.

Key Projects Delivered:

- Worexa Official Website — <https://worexa.in/>
- Maiora — <https://maiora.worexa.in/>
- Advocate Seva — <https://advocateseva.com/>

Web Developer

Nov 2025 – Jan 2026

Entellusco — Bangalore, India

Technologies: HTML5, CSS3, JavaScript, React.js, Responsive Design, UI/UX Optimization, Deployment

- Independently designed, developed, and deployed **3 production-grade websites** (2 full websites + 1 landing page) from concept to launch within a compressed timeline.
- Implemented pixel-perfect, fully responsive layouts aligned with client brand guidelines using HTML5, CSS3, JavaScript, and React.js.
- Applied performance best practices — asset optimization, efficient CSS architecture, and lazy loading — improving load times by **35%**.
- Managed complete deployment workflows including domain configuration, hosting setup, and post-launch performance monitoring.
- Collaborated directly with clients to gather requirements, incorporate feedback, and deliver final products with **100% client satisfaction**.

Key Projects Delivered:

- Cloude Enclosure — <https://www.cloudenclosure.com/>
- Balan Interior — <https://balan.entellusco.com/>
- SV Tour Bus Landing Page — <https://www.svtoursbus.com/>

Web Designer / Developer

DotXpertise — Mysore, India

Technologies: WordPress, HTML5, CSS3, JavaScript, jQuery, Figma, Git, Vercel, SEO, Google Analytics

- Delivered **15+ responsive, SEO-optimized websites**, driving an average **30% increase** in organic client traffic.
- Improved UI/UX workflows and design consistency, boosting user satisfaction scores by **25%** and reducing bounce rates by **18%**.
- Accelerated website load performance by **35%** through image compression, lightweight theming, and caching optimization.
- Streamlined design-to-development handoffs using **Figma**, cutting iteration cycles by **30%**.
- Designed mobile app modules and integrated backend APIs, delivering seamless cross-device user experiences.
- Ensured **WCAG 2.1-compliant** designs and managed error-free deployments via **Git and Vercel**.
- Participated in Agile sprints, gathering client requirements and delivering iterative updates with **100% satisfaction**.

Oct 2024 – Nov 2025

KEY PROJECTS

E-Commerce Platform

Technologies: React.js, TypeScript, Tailwind CSS, REST API, Git, Vercel

- Built a high-performance responsive e-commerce frontend with React.js + TypeScript; improved page rendering speed by **30%** using lazy loading and code splitting.
- Designed scalable component architecture with centralized state management for product filtering, cart, and checkout flows.
- Drove a **22% higher conversion rate** through usability testing and iterative navigation improvements.
- Enhanced SEO and WCAG accessibility, boosting site ranking; increased product engagement by **25%**.

Dec 2024 – Feb 2025

Certification Generation System

Technologies: PHP, MySQL, HTML5, CSS3, JavaScript

- Built a dual-interface web app with role-based access (Student / Teacher), automating certificate generation end-to-end.
- Improved certificate issuance efficiency by **70%** with integrated PDF generation and download; reduced manual errors by **40%**.
- Optimized SQL queries and backend logic, cutting data retrieval latency by **35%**.

Sep 2024 – Oct 2024

Industry Websites (Medical, Travel, Education, IT)

Technologies: WordPress, HTML5, CSS3, JavaScript, Google Analytics, Git

- Designed and deployed **10+ responsive websites**, improving brand reach by **45%** and increasing organic traffic by **30%**.
- Reduced average page load time by **35%**; boosted mobile traffic by **40%** through responsive design and performance tuning.
- Maintained **99.9% uptime** via proactive hosting management; strengthened security with SSL and malware protection.

Jan 2024 – Oct 2024

EDUCATION

Bachelor of Computer Applications (BCA)

SBRR Mahajana First Grade College, Mysore

Jun 2020 – Jun 2023

CERTIFICATIONS

- Full Stack Java Developer Certification — Besant Technologies

TECHNICAL SKILLS

Frontend Core	: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, jQuery
State Management	: Redux, Zustand, Recoil, Context API, React Query
Styling & UI Libs	: Tailwind CSS, Bootstrap, Material UI, Chakra UI, Ant Design, SASS/SCSS, Styled Components, Framer Motion, GSAP
APIs & Integration	: RESTful APIs, GraphQL, Apollo Client, Axios, Postman
CMS & Platforms	: WordPress (custom themes & plugins), Headless CMS

Testing & Quality	: Jest, Cypress, Playwright, ESLint, Prettier, Lighthouse, Web Vitals
Build & DevOps	: Webpack, Vite, Babel, Git, GitHub, Bitbucket, Vercel, Cloudflare Pages, GitHub Actions, CircleCI, CI/CD
Design & Tools	: Figma, Canva, Chrome DevTools, VS Code, Agile/Scrum
Performance & SEO	: Lazy Loading, Code Splitting, Bundle Optimization, PWA, SEO Auditing, Performance Profiling
Accessibility	: WCAG 2.1, ARIA Attributes, Screen Reader Testing, Keyboard Navigation
Security	: HTTPS/SSL, OWASP Frontend Security, CORS Handling, Input Validation
IT Support	: Hardware Troubleshooting, Network Diagnostics, Technical Support, System Administration
